120000pcs

Of plastic bottles are consumed world wide

80% plastic wastes end up in the Ocean each year

100000

Marine animals die each year as a result of being entangled or eating plastic

Research states that, by 2050, plastic will likely outweigh all fish in the sea.

PLASTIC POLLUTION

PLASTIC TREATMENT

1.landfilling 50% ——Main way

2.incineration 19% —— damage the air.

3. Recycling 9% ——a sustainable way to reduce the burden on landfills and the environment. But now only 9% recycled in this way,

what If we can recycle more plastic and then reproduction?

WHAT IS RPET?

rPET is a recycled plastic made entirely from recycled plastic water bottles. It's a sustainable alternative to virgin PET plastic as it reduces waste and pollution by reusing plastic that would otherwise end up in landfills or oceans

rPET can be recycled into:

Rpet water bottle

Rpet tableware

Rpet cloth

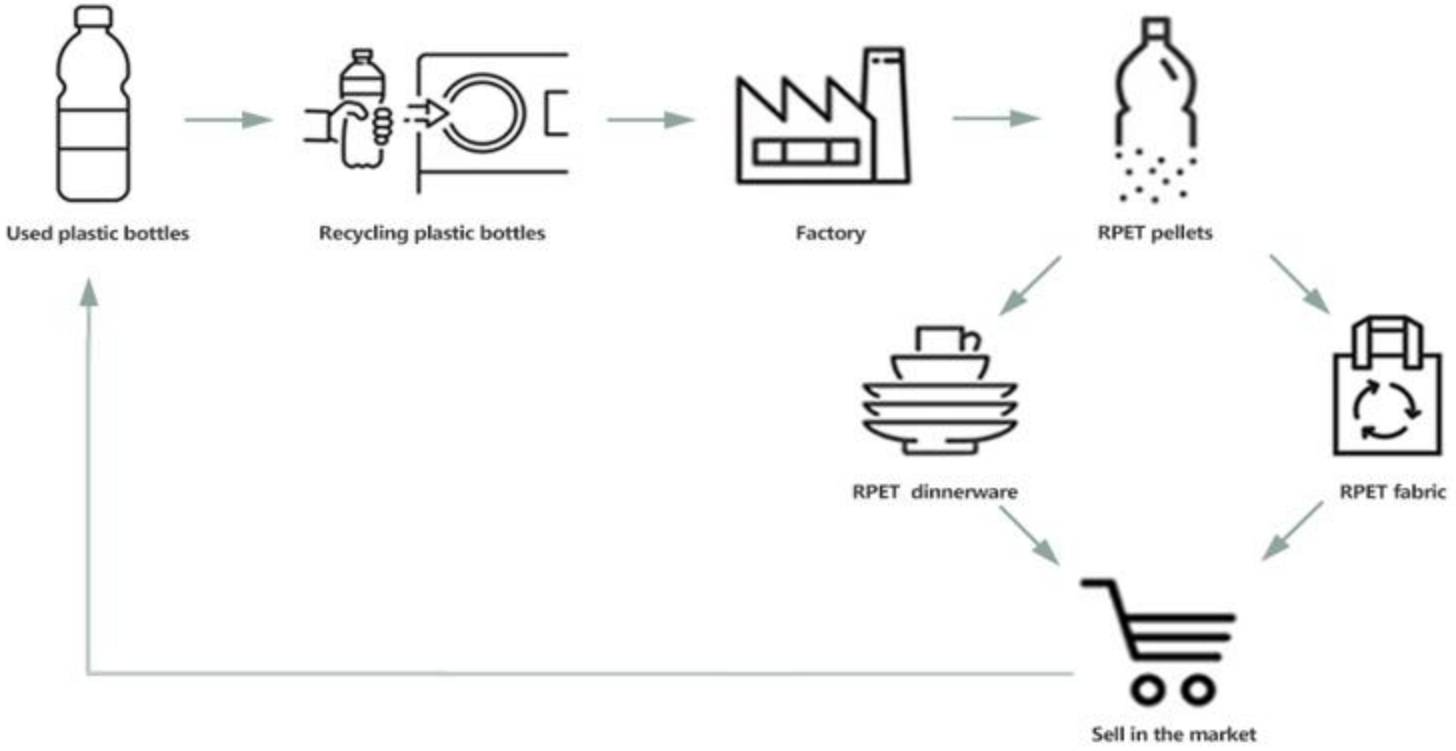
Rpet shoes

Rpet bags

…

TECHNOLOGICAL PROCESS

See How it is recycled and reproduced



BENEFITS OF USING RPET PRODUCTS

1.Highly sustainable, fully recyclable —— rPET products is made from recycled plastic bottles and can be recycled again to reduce plastic pollution

2.Reduce carbon footprint and CO2 emissions.

3. Reduce landfill and incineration, protect air

4. Reduce marine plastic pollution and protect marine life
